Skills

- **Languages**: C++, JavaScript, Python
- **Frameworks**: HTML, CSS, React, Tailwind CSS
- **Databases**: MongoDB, MySQL
- **Tools/Platforms**: Git, GitHub, REST APIs
- **Soft Skills**: Problem-Solving, Leadership, Time-management, Team Collaboration

Project

- **IMC-MERN Stack E-Commerce Website** | LIVE | GITHUB December 2025
  - Co-developed a full-stack MERN e-commerce application with **JWT-based authentication** and role-based admin access ensuring secure and scalable backend operations.
  - Designed and implemented scalable product management APIs supporting CRUD operations, advanced filtering, sorting, and search functionality.
  - Built a secure admin dashboard with protected routes and role-based access, streamlining product, user, and order management for improved operational efficiency.
  - Integrated **Cloudinary** for cloud-based image storage and delivery, enabling product image uploads and reliable performance in production environments.
  - Implemented **Redux Toolkit** for centralized state management, efficiently handling cart functionality, user authentication and product data for both guest and logged-in users.
  - Integrated **Razorpay payment gateway** to enable secure online transactions and order confirmation.
  - **Tech-Stack: React, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Cloudinary, JWT, Razorpay, Vercel**

- **CLOVIX-Detect Skin-Tone and Buy Clothes** | LIVE March 2025
  - Developed a responsive web application that performs **real-time skin tone detection with ~92% accuracy** using MediaPipe's face and landmark detection models via live webcam input.
  - Designed and implemented a **personalized recommendation engine** that maps detected skin tones to scientifically optimized colour palettes, **reducing average user outfit decision-making time by ~35–40%**.
  - Integrated **affiliate-based e-commerce links** to dynamically showcase curated fashion products aligned with recommended colour tones, enabling seamless product discovery.
  - Built a **mobile accessible UI** using **React and Tailwind CSS**, ensuring a consistent and intuitive user experience across devices and screen sizes.
  - Implemented the application using a **REST-ready, scalable architecture**, enabling seamless future backend integration and efficient, maintainable API communication.
  - Demonstrated a **production-ready integration of computer vision and frontend engineering** by delivering a real-world, client-facing fashion recommendation platform.
  - **Tech-Stack: HTML, Tailwind CSS, JavaScript, React, Mediapipe, Vercel**

Certifications

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | Infosys | LINK December 2025
- Cloud Computing – NPTEL | LINK April 2025

Position of Responsibilities

CEO at ARAMBH (Student Organization) Since Aug'25

Organized and managed two university events, leading a team of students to handle planning, coordination and marketing ensuring smooth operations and high participation.

Education

Lovely Professional University Punjab, India

Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.47*** *August 2023-Present*

MGM Public School Ludhiana, Punjab

Intermediate; ***Percentage: 90.6%*** *April 2021- March 2023*

MGM Public School Ludhiana, Punjab

Matriculation; ***Percentage: 94.2%*** *April 2020 - March 2021*
